

Cuisine based on the six culinary seasons!?

"There's a time for everything!"

Our dishes are meant to be prepared and served when the ingredients are at their peak. And sticking just to the traditional four seasons just doesn't give us enough time.

The Hotel Reussischer Hof divides the culinary year as follows:

- Creative New Dawn (January – February)
 - Herbal Awakening (March-April)
 - The Marriage of Flavours (May-June)
 - Refreshingly Hot Ice Age (July-August)
- Season of Colourful Fruitfulness (September-October)
 - Heavenly Spice Time (November-December)

Find out what you like best from the six culinary time zones.

We will enchant you with the charm of the seasonal differences.

Of course we also use the foods that are available all year round, but with no loss of quality.

We use our products like the painter uses colour or the musician an instrument. True to the motto:

"... the very fear to err is the error itself".

The
Büchner family and team
